

OUTDOOR ROOMS

Do you want an outdoor room?

What spaces do you wish you had outdoors?

- Pond or pool
- Kitchen
- Outdoor dining
- Meditation spot
- Coffee or libation location
- Bar
- Fireplace or firepit
- Secret garden
- Kids space

Would you spend less time in front of the TV and more time with your family if you had an outdoor room?

Do you have the perfect spot and just need the structure and design components to make it an outdoor room?

Can you see yourself using the space for parties or entertaining?

If you already have an outdoor room, does it:

- Have enough seating and overflow seating for entertaining?
- Feel like a continuation from the inside décor or a departure?
- Have the right lighting?
- Have vertical design elements that define the space?
- Have a fire feature or an element of interest?
- Does it look detailed or need something to add interest?
- Is there a place to serve food and set drinks?
- Do you love going there?
